

Practical NO. 9

Aim:- To create an html page to explain the use of various predefined functions in an array & Date object in JavaScript.

Code:-

```
<!DOCTYPE html>

<html>

  <head>

    <title>

      Prac-09

    </title>

  </head>

  <body align="center">

    <h1>Practical no.09

    <h2>

    <p id="date"></p>

    </h2>

    <script>

      const karg = new Date();

      document.getElementById("date").innerHTML = karg;

    </script>

  </body>

</html>
```

Output:-

Practical no.09
